WARRANTY & SUPPORT

SINCE 1981 CDI ISO 9001 14001 MORE I.T., LESS BUDGET

IT'S SIMPLE: WE OFFER THE EASIEST, MOST COMPREHENSIVE WARRANTY IN THE INDUSTRY WHILE REDUCING YOUR MAINTENANCE COSTS TO $0.

97% APPROVAL RATING

We truly understand how frustrating it is to call a customer service line and be put on hold for long periods of time, or be prompted to other lines. Therefore we have eliminated this, so when you call our customer service line, you go directly to them with short wait times and quick response times. This policy sets us apart from our competitors and has gained us a 97% customer satisfaction rating.

$0 COST OF OWNERSHIP GUARANTEE

CDI's standard warranty for refurbished devices means there is no cost to maintain your unit and we will never charge for fulfilling the warranty. We pay shipping both ways, we pay for the parts, and we ensure that once you have our units, you will not have to go out of pocket to keep them running. This way you can focus your budget strictly on purchasing the technology you need.

YOU CAN

- Speak to our techs and solve the problem remotely
- Diagnose the problem and request a replacement part (Usually shipped within 24 hours at our charge)
- Send a unit under warranty back to CDI for repairs or request a full replacement (We ship both ways
- Request a full replacement of any unit under warranty (we ship both ways)
- Suggest any other valid solution and watch our techs implement it

OTHER ADVANTAGES

- All communication responded to within 24 hours (average under 2 hours)
- Replacement units are cross shipped (we don't wait for you to send the bad part back)
- Custom Online Portal allows self-serve warranty requests and tracking
- Years of expertise with school-specific issues
- Single contact who will solve all issues without transfers or delays
- In-house staff in all positions

"CDI matches or exceeds the warranty given by new manufacturers like Dell or HP but still provides the same brand name systems my tech department was used to. They work closely with me to solve any problems and over the years we've had very few issues."

Ric Palmer, Principal/Technology Coordinator
Bickleton School District, Washington
